

## Adam's House & Pet Sitting Reviews

### **Review Title: Great Experience**

From our first communication we felt totally comfortable with Adam. He went out of his way to accommodate us on very short notice. We had a sitter planned for months who backed out at the last second. I sent out another Ad that started with HELP!, and Adam replied right away. We spoke on the phone and his life experience set us at ease. He offered to take us to the airport and picked us up upon our return...even though we ended up coming in a few hours late and arrived after midnight. The house was in great shape and the dogs were happy. We communicated back and forth while we were away and he even sent us pictures of the dogs playing and sleeping. This was our first experience with someone coming into our home and we were made to feel comfortable at the onset. Friends of ours came over and met him while we were away and they felt very comfortable as well. I would highly recommend Adam for any house sitting needs that you have.

### **Review Title: Excellent Catsitter!**

EasyWriter stayed in my house twice. I loved how he took care of my cats the first time so much, that I asked him back. He cared for my kitties the same way I would and treated them as his own each time I went away. He gave them so much love and attention, they barely even missed me. I have absolutely no hesitation to recommend this guy to care for your pets, plants, and house while you are away.

### **Review Title: Highly Recommended Sitter**

**Sit Dates:** May 2016      **Homeowner:** Mendee J.      **Location** Mompiche, Ecuador

Adam house sat for my husband and I in 2016. We owned The Mudhouse Hostel at the time on the north coast of Ecuador. We had 7 cabins on the property in addition to our own home plus 4 animals (2 dogs and 2 cats). Latin America has a high incidence of theft, including home break-ins, so the importance of a very reliable caretaker is essential. Our needs were for him to look after the business, our home, and most importantly our beloved animals. Adam was recommended by a friend for whom he had house/cat sat previously. We were incredibly grateful to Adam for his help. He was highly responsible and most importantly to us, took wonderful care of our animals. He is a very friendly and social guy. We can highly recommend Adam for home and pet sitting needs. If you have any specific questions or would like more information, we now live in Colombia but feel free to call me on my USA number (402) 870-5184.
